Nighttime Paving on I-15 in Hesperia

Hesperia, CA – The Rancho Road Interchange Project team will implement nighttime closures of Interstate 15 between Oak Hills Road and US 395 grind and repave a portion of the freeway that was damaged as a result of the May 5, 2014 fire at Rancho Road. These directional closures will take place on the southbound lanes on Monday, February 9th, and the northbound lanes on Tuesday, February 10th.

Motorists should use caution when traveling through the area. Earlier hours of the construction activity will leave at least one lane open to traffic (8pm to 11pm / 9pm to midnight). However, southbound operations after 11:00 pm and northbound operations after midnight will be completely closed until 5:00 am and 6:00 am, respectively. Traffic will be detoured using the newly constructed on and off ramps at Rancho Road.

Wednesday night will see intermittent lane closures in the same location during the same hours so crews can restripe the interstate following the paving operation. No detours will be necessary during Wednesday night's activity as at least one lane will remain open at all times.
