

COMMUTER ALERT / COURTESY POSTING

Date: Wednesday, February 17, 2010

For Immediate Release

The City of Murrieta continues construction of a new interchange at Clinton Keith Road. Demolition of the existing bridge will take place the night of Wednesday, February 17th. Northbound Interstate 215 will be completely closed beginning at 9 pm Wednesday night and will remain closed until the demolition over the northbound lanes is complete. Southbound Interstate 215 will close at approximately 1 am and will remain closed until the demolition is complete over the southbound lanes.

A clearly marked detour will be in effect. Traffic will exit at Clinton Keith Road and immediately return to the freeway using the on ramp, thus bypassing the work zone.

A similar closure will occur Thursday night, February 18, 2010 in the event the work is not completed Wednesday night.
