LMN-1

VICTORVILLE, CA – As part of the Interstate 15 - La Mesa / Nisqualli Interchange Project, construction crews will require the closure of two lanes in each direction of Interstate 15 between Bear Valley Road and Palmdale Road (SR 18) for the installation of concrete barrier rail to protect drivers and crew members during the 16-month interchange project. These nighttime closures on Wednesday, February 29th and Thursday, March 1st will reduce the interstate down to one-lane in each direction. Details for this construction activity are as follows:

DATE	TIME	LOCATION	DETOUR
February 29, 2012	9:00 pm – 4:00 am	Southbound I-15 (between Bear Valley Road and Palmdale Road) – Close #1 and #2 lanes for placement of median barrier rail	No detour – At least one lane will remain open at all times during operation.
February 29, 2012	10:00 pm – 5:00 am	Northbound I-15 (between Bear Valley Road and Palmdale Road) – Close #1 and #2 lanes for placement of median barrier rail	No detour – At least one lane will remain open at all times during operation.
March 1, 2012	9:00 pm – 4:00 am	Southbound I-15 (between Bear Valley Road and Palmdale Road) – Close #2 and #3 lanes for placement of shoulder barrier rail	No detour – At least one lane will remain open at all times during operation.
March 1, 2012	10:00 pm – 5:00 am	Northbound I-15 (between Bear Valley Road and Palmdale Road) – Close #2 and #3 lanes for placement of shoulder barrier rail	No detour – At least one lane will remain open at all times during operation.

NOTE: Freeway lanes are numbered from left to right from the driver’s perspective.
