PAVING PROJECT ON STATE ROUTE 195

Riverside County – Caltrans will begin a paving overlay project on State Route 195 (SR-195) also known as Avenue 66, on Wednesday, April 4, from State Route 86S (SR-86S) west for approximately five miles.

The work will take place Monday through Friday from 7:00 a.m. to 5:00 p.m. Traffic control with flagging will be required during the paving project. One lane will be available. Delays are expected to be minimal. The project is expected to be complete by the beginning of May 2007.

For information on other Caltrans roadwork, please go to our website at caltrans8.info. As soon as you see orange cones ahead, know that you are heading into the CONE ZONE. Most cone zone collisions occur without warning, before cars even reach the construction area. Most injuries and deaths in the cone zone are from rear-end collisions. Focus on the road ahead of you. Don't talk on the phone or change radio stations. A quick reaction could save your life. Remember to always slow for the cone zone!
