FOR IMMEDIATE RELEASE

I-215 Closure at Clinton Keith Road in Murrieta

False work to support the new bridge structure is being erected at the I-215 / Clinton Keith Interchange Project. Once the false work supports are completed at the abutments and columns, steel beams will be placed across I-215 to complete the system. Placement of the beams will require full directional closures of I-215.

The planned closures for Interstate 215 are as follows:

The northbound direction will be closed on the early morning (Friday night/Saturday morning) of May 8, from 12:00 AM until 7:00 AM.

The southbound direction will be closed on the night of May 11- May 12 (Tuesday night/Wednesday morning). The closure will begin at 10:00 PM and re-open by 5:00 AM on May 12.

Clinton Keith Road will be closed to local traffic during these timeframes as well. A local detour using the recently constructed Linnel Lane Bridge will be clearly marked.

The public will be notified as soon as possible if the scheduled closure dates and times must be changed or modified.
