

# I-215 / NEWPORT ROAD INTERCHANGE PROJECT

## Construction Alert

Construction Activity, May 26-29, 2015

### Project Overview

This project will reconstruct the existing interchange located on Interstate 215 (I-215) at Newport Road in Menifee. The proposed improvements will reconstruct the existing diamond interchange into a partial cloverleaf interchange configuration, with northbound and southbound loop on-ramps. The existing bridge will be widened to accommodate six through lanes of traffic, including outside shoulders that will be used as bike lanes and a sidewalk on the north side of the bridge.

**Preliminary work for the project is now complete and road work began on May 19, 2015.** Please plan ahead in anticipation of the temporary increased traffic in this area. If possible, please avoid the project corridor and use an alternate route.

Motorists and pedestrians should slow down and use caution when traveling through work zones, near barricades and equipment.

In an effort to ease holiday travel, there will be **no construction closures scheduled over the Memorial Day weekend.**

### Upcoming Closures
