

I-215 / NEWPORT ROAD INTERCHANGE PROJECT

Construction Alert

Pile Driving Operations May 27 - June 30, 2016

WHAT

Pile driving to widen the Newport Road bridge will begin as early as **Friday, May 27, 2016**, near the Newport Road under the I-215. The work is part of the I-215/Newport Road Interchange Project and is necessary to construct the foundation for the widened bridge.

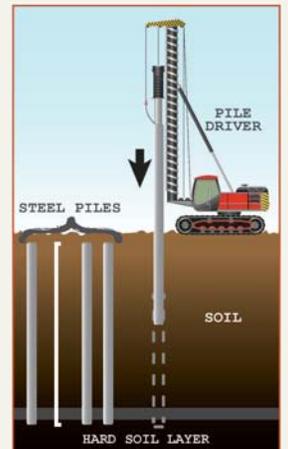

WHEN

Pile driving will begin as early as Friday, May 27, 2016 and continue through the end of June 2016

Monday-Friday only
(no weekend work)

7am - 6pm

**Construction activities will be suspended on Monday, May 31, 2016 due to the Memorial Day holiday.*

WHAT TO EXPECT

You may notice increased noise and vibration during this operation, particularly if you live or work near the construction area. **Noise and vibration levels will be measured and closely monitored.**

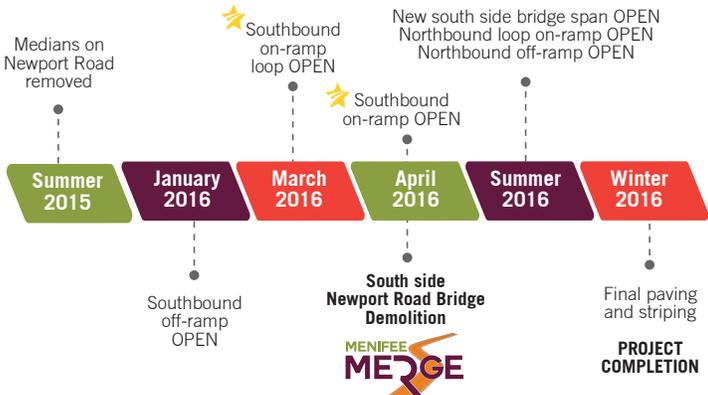

WHAT IS PILE DRIVING?

Pile driving is a common method of constructing structure foundations. To support the structure, steel beams (piles) are driven into the soil until reaching a hard layer of earth beneath the structure foundation.

We apologize for any inconvenience this may cause you, but pile driving operations are necessary to build a support system for the new bridge.

Please plan ahead in anticipation of the temporary increased traffic in this area. If possible, please avoid the project corridor and use an alternate route. Motorists and pedestrians should slow down and use caution when traveling through work zones, near barricades and equipment.

Project Schedule

NOTE: Information contained in this Construction Alert is subject to change without notice, based on inclement weather, field conditions or other operational factors.
