(909) 383-4631

## **BRIDGE REPAIR ON I-215 IN SUN CITY**

**Sun City** – Caltrans construction crews continue repairs to the McCall Bridge on Interstate 215 (I-215) in Sun City. It is suspected that a “high hit load”, or a vehicle taller than the bridge, caused the damage to some girders along the underpass of the bridge.

Caltrans Structures, along with a contractor, have been making repairs under a \$1.5 million emergency contract.

Lane closures will occur beginning tomorrow and into next week:

- ✓ One lane on southbound I-215 will close tomorrow, Saturday, June 21<sup>st</sup> from 5AM to 4PM.
- ✓ One lane will be closed on southbound I-215 at McCall Blvd. each night from 9 PM to 5 AM, beginning Sunday, June 22<sup>nd</sup> through Saturday, June 28<sup>th</sup>.
- ✓ It will be necessary to close lanes on McCall Blvd. over the bridge during the repair project. **One lane in each direction is available to traffic on McCall Blvd. overpass.**

Shoring, or support apparatus, has been placed under the bridge to alleviate pressure while the repairs take place. Full closure on I-215 still may be necessary before the repairs are complete. Completion of the work is expected in 3 to 4 weeks.

The bridge has been determined safe for travel and is open to motorists. The work schedule and extent of the damage is preliminary at this time, however any new information will be released when obtained.
