Work Begins on the State Route 138 Culvert Repair Project

SAN BERNARDINO MOUNTAINS – Construction crews will begin working on Monday, July 1 on State Route 138 (SR 138) near Silverwood Lake at post mile R28.5. These crews will be replacing two 42” culverts that have failed and repairing the slopes around both culverts.

Project work hours will be Monday – Friday from 7:00 AM to 3:30 PM. One of the two lanes on SR 138 will be closed in order for imported dirt to be delivered to the bottom of the slope. Traffic will be flagged through the construction zone (0.5 miles) with expected delays of no more than ten minutes. The project is estimated to be completed prior to the Labor Day Weekend.

All work is dependent on weather.
