FOR IMMEDIATE RELEASE

DILLON ROAD WIDENING IMPROVEMENT PROJECT

COACHELLA- A capital improvement project sponsored by The City of Coachella is currently underway improving Dillon Road between SR-86 and I-10. Intermittent closures of the ramps at I-10 and Dillon Road and SR86S and Dillon Road are required to finish paving operations in the area.

The on and off ramps at I-10 / Dillon Road and at SR86S / Dillon Road will be closed for short periods of time during paving operations scheduled for June 30th - July 2nd. Only one of the four ramps (at each interchange) will be closed for no more than two hours at a time. This limits inconvenience to motorists. Anticipate intermittent closure of the ramps between 7AM and 5 PM.

Digital Message Boards will be posted to assist drivers and will offer detour information. There will be no ramp closures between July 3rd and July 7th due to the Holiday weekend.

Temporary striping will be restored to Dillon Road once the paving operation is completed on Wednesday afternoon, July 2nd. Traffic control will continue, as needed, for the duration of the project.

Please contact Scott Gibson, Project Inspector, at 909-210-0548 if you require more information. The City of Coachella thanks you for your patience as we work to improve your local streets and roads.
