Palm Drive / Gene Autry Trail Interchange Project

Riverside County Department of Transportation will be closing I-10 at Palm Drive/Gene Autry Trail on the nights of June 30, 2010 and July 1, 2010, as shown in the table below. The purpose of these closures is to allow for the construction of falsework, a temporary support structure, over I-10 for the new bridge overcrossing.

During the closure, CHP will be directing motorists off of the freeway at the Palm Drive/Gene Autry Trail exit and back on the on-ramp. Motorists are advised to avoid the construction area during the specified hours to help minimize congestion.
