More Nighttime Freeway Closures Planned for Bridge Construction at Rancho Road

Hesperia, CA – Crews will require nighttime closures of southbound Interstate 15 between Oak Hills Road and US 395 beginning Monday, July 7th and continuing through Wednesday morning (see [Closure Detail](#)). Lane closures will begin at 9pm with full closures starting direction at 11pm. Full southbound closure will be lifted at 5am to meet the demand of morning commute traffic. The newly constructed on and off ramps at Rancho Road will be used as detours during this full directional closure. Concurrently, the two inside lanes of the northbound direction will be closed from 9pm to 6am. No detour is necessary on the northbound direction as at least one lane will remain open at all times.

Lane closures for southbound I-15 will continue on Wednesday and Thursday nights. At least one lane will remain open during these nighttime lane closures. Motorists are encouraged to slow down when traveling through the construction area and be mindful of construction equipment and personnel.

The closures are necessary so crews can safely construct the support structure needed for constructing the new Rancho Road bridge over Interstate 15. This activity marks a major milestone in the bridge construction effort following the May 5th fire that consumed much of the bridge falsework that had been previously erected.

Closure Detail

Date	Time	Location	Details
July 7 - July 9	9pm – 5am	Southbound I-15 between Oak Hills Rd and US 395	Two inside lanes will be closed from 9pm to 11pm and full southbound closure from 11pm to 5am. Rancho Road ramps will be used as detour during the full closure.
July 7 - July 9	9pm – 6am	Two Inside Lanes of Northbound I-15 between Oak Hills Rd and US 395	Two inside lanes will be closed from 9pm to 6am. No detour is necessary as at least one lane will remain open at all times.
July 9 – July 11	9pm – 5am	Southbound Lanes of I-15 between Oak Hills Rd and US 395	Two inside lanes of Southbound I-15 will be closed from 9pm to 5am. No detour will be necessary as at least one lane in each direction will remain open at all times.
