I-10 in Banning

Caltrans Maintenance has been working today on a slurry seal project on the I-10 in Banning between 8th & Ramsey Streets. The project was scheduled to end at 4:00 p.m., but due to the seal not properly curing, the project is still ongoing. At this time, both east and west bound lanes on the I-10 in Banning are limited with two ramps closed. The estimated time to open all lanes is approximately 7:00 pm
