## FOR IMMEDIATE RELEASE

### UPDATE

## STATE ROUTE 371 LEFT TURN LANE PROJECT

**RIVERSIDE**—The California Department of Transportation (Caltrans) will continue work next week to complete the State Route 371 (SR-371) Left Turn Lane Project located just west of Bahrman Road to just west of Bailiff Road in the community of Anza.

Caltrans is pleased to announce that the project scope has been altered to accommodate the extension of a two way continuous left turn lane from the center of Anza to the intersection at Bahrman rather than the originally planned left turn lanes at Bahrman. Requests from the Anza community at a recent Municipal Advisory Council meeting led Caltrans to change the lane configuration based on the access needs of community and local businesses.

Final work to complete the project will continue on Monday, October 3. Lane closures with flagging will take place Monday through Friday from 6:00 a.m. to 6:00 p.m. for approximately another week, weather permitting. Additional work will take place throughout the project limits with minimal traffic impacts until completion, which is expected by the end of October. The project was originally scheduled to last until the end of 2016.

Caltrans expresses its gratitude to the community of Anza for its patience during the project, as well as for the input that led to the changes that will allow better access for the community, while still addressing the safety features for which the project was originally designed.
