SR-91 GREEN RIVER ROAD PROJECT UPDATE

CORONA – Construction of the new \$21 million bridge at Green River Road continues and has entered into a phase that requires closure of the right flow lane from the eastbound 91 exit ramp to Green River Road.

There isn't sufficient room to accommodate the free right lane at the eastbound exit ramp. The free right lane merging into Green River Road has been removed to reduce the potential for accidents. Caltrans Safety and Design teams are reassessing the current lane alignment and looking for a sensible solution that won't disrupt construction or the flow of traffic.

To avoid delays local residents and Corona visitors are strongly urged to use alternate exits ramps on the SR-91 within the City of Corona.

Signs are posted to advise and direct motorists. Caltrans asks that all advisory signs be obeyed and that you SLOW FOR THE CONE ZONE. Caltrans would like to thank motorists for their patience and support as we work to improve your roads.
