District: 8 – San Bernardino/Riverside Counties
Contact: Terri Kasinga
Phone: (909) 383-6799 (work)
(909) 383-4631 (Caltrans Public Affairs)

REMINDER

DEVORE 2 – WEEKEND WORK UPDATE

RAPID REHAB WEEKEND WORK FOR NOVEMBER 3 - 5

San Bernardino County – Caltrans continues to make progress on the Devore 2 Pavement Rehabilitation project on Interstate 15 (I-15) near the junction of 15/215 in Devore, just south of the Cajon Pass. Night work will continue Monday through Sunday from 6 pm to 6 am.

There will be Rapid Rehab weekend work this weekend. Rapid Rehab weekend work is tentatively scheduled for November 3 through 5. Closure B will begin on Friday, November 3, at 9:00 a.m. and continue to Sunday, November 5, at 1:00 p.m. Closure B is as follows:

- Friday morning (9 am), November 3 to Sunday afternoon (1 pm), November 5:
- Southbound I-15 to southbound I-15 connector closed.
 - Northbound I-215 to southbound I-15 connector closed.

Detour: Travelers wanting to use northbound I-215 to southbound I-15, may take I-10 west to I-15 north. Southbound I-15 travelers may use southbound I-215 to I-10 west back to I-15.

The southbound I-15 from Glen Helen Parkway to just south of the Lytle Creek Wash has one lane closed, with three lanes available. This continuous lane restriction will take place through the end of November for guardrail upgrades. Delays have been experienced during the weekday morning commute hours. Motorists are advised that unless you live in the Devore area – you will not be permitted passage on Devore Rd. via Kenwood Ave. through the Devore community (for the safety of the residents & children). Please add some extra time to your trip or if possible, alter your work hours to avoid the delays.

Caltrans advises motorists to avoid the construction or travel before or after the work hours. For more information on this project or other Caltrans roadwork, please go to our website at www.caltrans8.info. You may request a Devore 2 brochure or sign up for weekly alerts from the website. If you do not have access to a computer, please call us at (866) 383-4631.
