RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

HIGHWAY 74 STORM DRAIN INSTALLATION

CITY OF HEMET – A new storm drain facility will be installed through Highway 74 at Meridian Street in the City of Hemet beginning Monday, November 9, 2015.

Motorists will encounter reduced lanes along Highway 74 at the intersection of Meridian Street. At least one lane of traffic will remain open in each direction of Highway 74 for the duration of construction. Meridian Street will not be accessible at the intersection of Highway 74 during the construction. Motorists can expect delays not to exceed ten minutes.

The contractor for the \$6.4 million storm drain project is Gwinco Construction & Engineering of Ontario, CA. The construction affecting Highway 74 is expected to be completed in early December.
