

## News Release – For Immediate Release

---

Date: December 17, 2009

### **I-215 and Clinton Keith Road Interchange**

Murrieta, CA – Interstate 215 and Clinton Keith Road Interchange

On December 21<sup>st</sup> work begins on the interchange improvements at I-215 and Clinton Keith Road. On November 17, 2009, the Murrieta City Council awarded the \$12,598,000 construction contract to Ortiz Enterprises Inc., from Irvine. The first elements of work will include placing construction area signs, protective k-rail, and modifying the traffic striping on Clinton Keith Road and I-215. These are important traffic control measures that will provide a safe project for public traffic as well as contractor crews who will be constructing the much needed improvements. Beginning in early January 2010, the contractor will begin clearing and excavating to construct the planned improvements. The project should be complete in about 18 months and provide improved access to the I-215 and a six lane bridge across the freeway that will significantly reduce the current congestion.
