STATE ROUTE 91 **LANE COMPLETE AT SERFAS CLUB**

CORONA- Caltrans has completed the \$1.4 Million project to add an additional lane on eastbound SR-91 from SR-71 to Serfas Club Drive. Highland Construction, the contractor, began construction on October 29, 2007 and finished today. The lane is open to traffic and drivers are now taking advantage of the additional eastbound lane between SR-71 and Serfas Club Drive.

Improvements include construction of the new lane, realignment of the center median and upgraded drainage. The lane enables commuters to navigate lanes more easily, improves traffic flow, and offers a continuous lane into the City of Corona from the SR-71.

A \$606 million Bi-County project with Caltrans, Orange County and Caltrans, Riverside County is estimated to begin late 2009 that includes construction of a continuous lane on eastbound SR-91 from the SR-241 Toll Road in Orange County to the SR-71 in Riverside County. This additional lane will ultimately connect to the one just finished in Corona and offer the same benefits noted above.

Regular project updates in Riverside and San Bernardino Counties are available on our District 8 web site. Visit Caltrans8.info and sign up in the "News and Document Center" to receive Commuter Alerts and News Releases on projects that may affect your commute.
